JACK MEADOR DEAD

Passed Away In California Last
Saturday.

Friends of A. J. Meador received
news of his death yesterday morn-
ing. Information was meager. His
son, Byron Meador, who is living in
Nashville, received a telegram Sun-
day morning informing him of his
death, which occurred in California.
It is not known whether or not the
remains will be brought here for
burial.

Mr. Meador is survived by his
wife and one child, Byron Meador.
He made his home in this city until
a few years ago and was a promi-
nent hardware dealer, one time be-
ing associated in business with the
late Chas. A. Thompson, under the
firm name of Thompson & Meador.
He was also at different times head
salesman in other hardware houses.
After leaving here he spent several
years in Florida, but had been living
in California for some time.

Von Otto Departs.

William Von Otto, the young mu-
sician who has rendered such sweet
music at the Princess this fall, has
finished his engagement and left the
city Sunday. Big crowds heard his
last violin solos Saturday.

Many Additions.

Rev. J. H. Dew, who held the
meetings here at the Baptist Church
in November, has just closed a re-
vival at the Walnut Street Baptist
Church in Louisville, in which there
were 167 additions to the church.

GOVERNMENT BY COMMISSION

How The Plan Originated And Its
Present Status.

The commission form of municipa-
l government substitutes for the may-
or and board of aldermen a commis-
sion of five men, elected by the peo-
ple just as they would elect assembly-
men or aldermen. Each of these five
name have special supervision, such
as the police, the fire department, or
water supply. There is no magic in
the number five, any community
which wants a commission of fifteen
or of three can have it.

The mayor is one of the board and
has very little authority. Virtually,
he is simply the chairman of the
commission, with not much more
privilege than the right to call them
to order.

The commission form of govern-
ment, as usually understood, may be
illustrated with the system adopted
in Des Moines, Iowa.

The general plan is that the citi-
zens by primary may nominate can-
didates for mayor and four commis-
sioners, who shall have complete
charge of town business, legislature,
executive and judicial. Any person
can be nominated by a petition of 25
citizens. The 10 candidates having
the highest vote at the primary two
weeks later are submitted to the
citizens for an election, and the five
candidates having the highest votes
at this election comprise the city
council, with full powers—legisla-
tive, executive and judicial. They
manage the business as completely
as the board of directors could man-
age the business of a bank.

There are five departments, as
follows: First a department of public
affairs; second a department of ac-
counts and finance; third a depart-
ment of public safety; fourth a de-
partment of streets; and fifth, a
department of parks and public
property.

The Mayor, by virtue of his office,
has charge of the department of
public affairs, with general super-
vision over the other departments,
and receives a salary of not over \$3-
500. The other commissioners re-
ceive a salary of not over \$3,000.
The council, by majority vote, ap-
points all other officials of the town
—city clerk, solicitor, tax assessor,
police judge, treasurer, auditor, civil
engineer, city physician, marshal,
chief of fire department, street com-
missioner, library trustee and all
other necessary officers. These se-
lections are made under a board of
civil service commissioners. Each
commissioner appoints the subordi-
nate employees in his own department
and each commissioner is held re-
sponsible for the successful manage-
ment of his department.

Extreme pains are taken to pre-
vent fraud in the elections. For in-
stance, the fullest publicity is re-
quired of campaign funds. Both the
source and the manner of expendi-
tures are required to be reported
under oath. No officer or employee
is permitted to be interested, direct-
ly or indirectly, in any contract with
the city or in any public service cor-
poration, or to accept any free ser-
vice therefrom.

All franchises or right to use the
streets, highways, or public places
of the city can be granted, renewed
or extended only by ordinance, and
every franchise or grant for inter-

Some Salaries Compared.

Councilman Buckner has gotten
some comparative figures on salaries
in Hopkinsville and the near-by third
class cities, as follows:

Mayor—Hopkinsville \$600, Hender-
son \$1,200, Owensboro \$1,800,
Bowling Green \$750.

Judge—Hopkinsville \$1,500, Hender-
son \$800, Owensboro \$1,000, Bow-
ling Green \$750.

Attorney—Hopkinsville (with com-
mission) \$1,300, Bowling Green
\$650, Henderson \$500 and 10 per
cent commission on fines collected
by him.

urban or street railways, gas or
water works, electric light or power
plants, heating plants, telegraph or
telephone systems, or public service
utilities, must be authorized or ap-
proved by a majority of the electors
voting thereon at a general or special
election.

Every motion, resolution and ordi-
nance of the council must be in writ-
ing, and the vote of every member
of the council, for and against it,
must be recorded. The council is re-
quired to print and effectively distri-
bute each month, in pamphlet form,
a detailed, itemized statement of all
receipts and expenses and a summary
of its proceedings during the preced-
ing month. At the end of each
month the council must cause a full
and complete examination of all the
books and accounts of the city to be
made by competent accountants and
publish the report in pamphlet
form.

Every ordinance or resolution ap-
propriating money or ordering any
street improvements or sewer, or
making or authorizing any contract
or granting any franchise, must be
complete in its final form and re-
main on file with the city clerk for
public inspection at least one week
before its final passage or adoption.

Nothing is permitted to be done in
secrecy or in the dark. The public
business is public.

Ward lines are abolished in the
choice of the city commissioners, so
that each citizen votes for each com-
missioner both in nominating and
electing him. Partisanship is elimi-
nated. No party emblems are per-
mitted on the ticket, but the candi-
dates in serial order, without party
designation, and are nominated and
elected as far as possible on the
ground of personal fitness.

In Galveston the city government
was given into the hands of five men,
three of whom under the original
charter were appointed by the gov-
ernor and two elected by the peo-
ple. By a decision of the supreme
court, the choosing of all the com-
missioners was subsequently made
elective.

There is a Mayor, or general man-
ager, and four managers of particu-
lar departments. All power resides
in the commission. A majority vote
of the body is final.

The mayor is presiding officer and
general manager of the affairs of the
city, but he has no power beyond his
vote as commissioner, except some
minor abilities to act in case of emer-
gency. The commissioners must
also come to the board to
act. The commission at its first
meeting divided its departments
among its members by vote under
these four heads: Commissioner of
finance and revenue, police and fire
commissioner, commissioner of street
and public property, and water
works and sewerage commissioner.

The plan does not insure good gov-
ernment; no mere system can do
that. The people must be alert, in-
terested in the city and its adminis-
tration and ready to act if their in-
terests are not guarded. No scheme
of government can take the place of
these qualities on the part of citi-
zens.

Charity by The Elks.

Exalted Ruler H. E. Brown has
appointed the following Santa Claus
committee to dispense charity to the
poor on Christmas: Ike Hart, chair-
man, E. J. Duncan, R. A. Cook,
Vego Barnes, Jno. P. Thomas and
Ernest Cravens.

Mistake Corrected.

The report that Dr. Austin Ball and
Dr. I. Fierstein would surrender
their offices in the Summers building
to the Kentucky Public Service Co.,
was a mistake. The company's lease
does not include that part of the
building.

ROUSING
MEETING

H. B. M. A. Will Get Into Line
For Great Work in
1914.

THE IMPERIAL QUESTION UP

Steps To Be Taken To Secure
Sittings of Federal
Court.

The H. B. M. A. had on its work-
ing clothes at its meeting Friday
night. A large crowd was present
and the coming year's work will be
greater than the one now drawing
to an end. Inspiring speeches were
made by M. C. Forbes, Mayor Meach-
am and others and though much has
already been accomplished, yet the
Association thinks it has just made
a start in upbuilding the city and its
best interests.

The often talked of matter of se-
curing sittings of the Federal Court
here was brought up by John Fel-
land and freely discussed. As the
government building will be com-
pleted next year, and as a slight
change in the plans would make
plenty of room for holding the sit-
tings of Judge Evans' court in a
new district, to be composed of
Christian, Todd, Trigg and four or
five other counties, the Association
will make a strong effort, backed up
by every available influence, to have
sittings of the court in the center of
the court in the center of a district
more convenient to the people than
having to go to Owensboro, Bowling
Green and Paducah when summon-
ed as petit or grand jurors before
the court.

The question of the Imperial To-
bacco Company's withdrawing its
business from Kentucky was discus-
sed at considerable length. The ef-
fects on farmers and business in all
its branches were viewed from every
standpoint and the consensus of
opinion is that the county and city
cannot afford to lose a corporation
that has proven a great factor in
building up the city as well as being
a great help to the planters who
have sold their crops to the Imperial
for many years. The best of feeling
for the company and the desire that
it shall continue business in this part
of the black patch was ordered to
be expressed in resolutions by a com-
mittee, composed of B. Gordon Nel-
son, T. J. McReynolds and C. M.
Meacham. These resolutions will
be prepared by the committee and
forwarded to the President of the
company, Mr. Hodge, as soon as
practicable.

FALLING SLATE

Crushes Former Citizen of This
County.

Elijah Cravens, who moved to Her-
rin, Ill., about a year ago, was the
victim of a serious accident recently
and he is still confined to his home
as a consequence. While Mr. Crav-
ens was at work in a coal mine he
was caught under a mass of falling
slate and crushed in such a manner
that it was feared that he would die
of his injuries. His jaw bone was
broken and his head and face badly
lacerated.

Mr. Cravens was reared near Jul-
ian and resided here some time be-
fore moving to Herrin.

Silver Wedding.

Last Saturday was a memorable
day in the home of Mr. and Mrs.
John M. Morris. It was the 25th an-
niversary of their marriage and their
silver wedding was an occasion that
was highly enjoyed by those present,
all of whom entered into the festi-
vities with enthusiasm befitting the
day and wished Mr. and Mrs. Mor-
ris many more years of happiness.

McLEAN WILL
CLOSE DOWN

College Has Been Merged With
Transylvania Uni-
versity.

STATEMENT BY TRUSTEES.

The Last School Session Will
Be Held This
Week.

McLean College, one of Hopkins-
ville's oldest educational institutions,
has changed hands and will be closed
this week and will not reopen for the
present. It becomes the property of
Transylvania University. The fol-
lowing statement was given out yes-
terday:

It is hereby announced that over-
tures of McLean College to Transyl-
vania University soliciting that the
former may be merged into the lat-
ter have met with favorable re-
sponse and been agreed to; and that
the College will conclude its work
here at the end of this week.

To this announcement it is desired
to add a short but explicit explana-
tion to all the friends of McLean
College who may not be already con-
versant with the causes of its present
plans and purposes.

After the fire of February, 1912,
which destroyed Rash Hall, money
and other assets were secured, which
together with certain real estate pro-
posed to be alienated if necessary,
were sufficient for the rebuilding of
that hall without incurring debt. No
provision, however, was made in ad-
vance for furnishing and equipping
the new building. This was because
in order to rebuild in time for school
in the autumn the contract must be
let without delay; for it had requir-
ed until about June 1st to cover the
contract price of the building itself.
And the prospect of the means with
which to furnish and equip seemed
to conservative friends and business
men very good. Suffice it, that pros-
pect was not realized and debt of
course has resulted.

Also at the time of letting the con-
tract for the new building there
seemed to be good prospect of a be-
ginning of endowment. But after al-
most two years of expensive effort
practically nothing is done in this di-
rection. On the contrary, something
of the expense of the effort has gone
to swell indebtedness.

Also the fire of course left the
school itself in a disabled and some-
what disordered condition which has
continued until now and has made it
necessary for the Trustees to remit
the rentals hitherto paid by the man-
agement and in addition to help by
providing an extra teacher for sev-
eral months.

Also the College has received from
time to time gifts of considerable
sums on the annuity plan, i. e., sums
for which interest is paid during the
life time of the donor. Some \$12,-
000 of such gifts make their regular
drafts for interest.

And besides drought and reports of
typhoid fever among students as
having originated at the College
greatly reduced the number of mat-
riculates for this year and thus ren-
dered more difficult the maintenance
of the school within and the appeal
for endowment without.

In a word, about \$20,000 in cash is
needed to meet the indebtedness of
the College. A long term obligation
of \$5,000 more is to be cared for. In
addition, annuities on about \$12,000
must be paid. The interesting bear-
ing obligations of the school are thus
not far from \$37,000. Against these
there are some subscriptions and
other assets apart from the real es-
tate of the school amounting to sev-
eral thousand dollars, but they are
not now available. Meantime inter-
est and other fixed expenses go on.

In this extremity the Trustees of

Four hundred and fifty empty po-
tato cars were counted on railroad
tracks at Fon du Lac, Wis. The
condition resulted from a determi-
nation by Wisconsin growers not to

growers to believe potatoes will sell
soon for a dollar a bushel.

Christmas.

Christmas is nearly here, but I am
not glad,
Instead of being glad it makes me
sad,
The Christmas of old I was glad to
see,
But Christmas is not like it used to
be.

Those beautiful snows are beautiful
no more,
Those Christmas snows of the long
ago.
That turkey and old ham, cake and
pie,
Are not good like they were in days
gone by.

I used to be glad when winter came
in,
Happy when the Christmas snows
would begin;
But now it makes me shivery and
cross
When the winds come sweeping
down from the north.

Way back yonder when I was a wee
chap,
When we plaid Tum-tum Lula and
Snap;
Then Christmas was a season grand
and fine,
Even the old people had a good
time.

But Christmas is no more a time of
joy,
Not even for the little girl or
boy;
That happy Christmas laugh and
merry shout,
We now hardly ever hear them ring
out.

IMPORTANT MEETING

Of B. M. A. Called For Last
Night—Imperial Co.
Situation.

One of the most important mat-
ters ever before the Hopkinsville
Business Men's Association was up
for consideration at the meet-
ing called for Friday night. Secretary
Bleich submitted the report of
the good roads campaign com-
mittee and other matters of vi-
tal importance were before the
meeting, but the Imperial Tobacco
Company question is now caus-
ing more thought, and speculation
as to what would be the result of
the company's withdrawing from
the State overshadows all others just
at this time. Everybody, as far as
our information goes, wants the Im-
perial to stay with us, and though
the farmers may not be entirely a
unit, doubtless a large majority of
them are on the side of the Imperial
and deprecate the action of the Mor-
ganfield jury.

Croup is a terrible disease, it at-

writes about his children: "Some-

We rely on it for croup, coughs and

Sun mt, N. C.—In a letter receiv-

the notary public, says: "My wife
has been ailing for nearly 12 years,
from female ailments, and at times
was unable to leave the house. She
suffered agony with her side and

without relief. After these treat-

IS BROUGHT TO NEW YORK

Montreal Man Found Mummy
Of Child In Mountains
Of Peru.

New York, Dec. 14. — A 500-year
old boy came to New York this after-
noon in a wooden box 10x12x6 inches.
The boy was 12 years old when mum-
mified some five centuries ago. The
mummy was found in the mountains
of Peru by Thomas G. Taylor, of
Montreal, and was admitted into the
country without payment of duty
under the clause in the traffic provid-
ing for the free entry of antiqui-
ties.

Mr. Taylor said that he thought
the mummy was that of an Inca boy.
The centuries it had spent within
the tomb had failed to dim the luster
of its short black hair. The body
was embalmed with the head drawn
down to the knees and had shrunk
to but a fraction of its original pro-
portions.

Binding cloth, rotted by time,
still clung to the body.

Tree That Produces Milk.

In South America there is a most
convenient milk producing tree which
the natives take advantage of for the
feeding of their children. By boring
a hole in its trunk a clear sweet
stream of milk emerges, which is
both healthful and delicious.

Silverware Makes An Ideal Gift

Whether you are contemplating a gift that cost little or much, Silver-
ware is always acceptable. In buying Silverware it is well to choose
standard makes—it is well to buy silverware from a store that is sat-
isfied with a small margin of profit.

We believe that we can make more money by selling a great
deal of silverware at a small margin of profit rather than an occasion-
al piece at a big margin.

This principle—this belief accounts for our being able to sell the
same silver for less money and better silver for the same money than
you can buy elsewhere.

We ask the opportunity to show you what
we have and how reasonable we can sell it.

Forest Notes.

Twenty states have published reports of their wood-using industries.

A good grade of excelsior is being made from firekilled Alpine fir and Englemann spruce in Colorado.

It is predicted that western yellow pine will furnish an excellent source of turpentine as the southern pine becomes exhausted.

While there are five hemlocks in the United States, only two are of any commercial importance, common hemlock and western hemlock. Of these two western hemlock makes the best lumber.

The Philippine bureau of forestry uses a launch for service between islands. The U. S. forest service employs several, both on inland lakes and in salt water, in Alaska and Florida.

Trunk manufacturers in Colorado are abandoning the usual basswood and cottonwood for the trunk box, and turning to Englemann spruce, which combines lightness, strength, and ease of working.

COL. JOE F. FOARD

Long Prominent In Kentucky Business Affairs, Is Dead.

The death of Col. Joe F. Foard occurred Wednesday morning at 11 o'clock at his home, Natchez, Miss. The body was placed in a vault there, and later will be moved to this city for interment.

Col. Foard was well known in Hopkinsville, where he was formerly prominent in business circles. He was owner and operator of the Hecla Coal Company, with his mines at Earlinton, Ky., and divided time between Earlinton and Hopkinsville. About thirteen years ago he moved to Mississippi, but is still remembered by a large number of friends, to whom the news of his death will come as a great shock.

During the four years of the civil war Col. Foard under the colors of the Confederacy, enlisted from Kentucky as a member of Dibreli's cavalry, winning the rank of major and establishing a record for intrepid bravery. He was also prominent in Masonic circles.

Surviving relatives are a wife formerly Miss Cornelia Young of East Tennessee, and two daughters, Mrs. Knox Hume of Nashville and Mrs. William Wendel of Murfreesboro. Mrs. Hume was at the bedside when the end came and will accompany the remains here for burial, and will be joined by Mr. Hume and Mrs. Wendel.

Soon after the war Col. Foard conducted the hotel on the corner of Ninth and Main Streets, then known as the Foard House. He was 77 years of age.

Drag, Brother, Drag.

If your road is soft or rough,

Drag, brother, drag;

Once or twice will be enough.

Drag, brother, drag;

Wheels won't sink into a rut,

Every time you strike a rut

Teams won't worry if you'll but

Drag, brother, drag.

'Twon't take long to fix your road,

Drag, brother, drag;

If you'd pull a bigger load,

Drag, brother, drag;

It means dollars in the end,

Saved on teams and wagons,

friend,

So to this your best ear lend—

Drag, brother, drag.

And "if at first you don't succeed,"

Drag, brother, drag;

And once or twice don't fill the need,

Drag, brother, drag;

When a shower of rain has passed,

And the sun shines out at last,

While the roads are drying fast,

Drag, brother, drag.

Every time you drag the road,

Drag, brother, drag;

The lighter to your team the load,

Drag, brother, drag;

It will pay you every time,

Just to see your horses smile,

As they quickly trot a mile,

Drag, brother, drag.

And "Gabe" will come along and see,

Drag, brother, drag;

Just how a good road ought to be,

Drag, brother, drag;

When he gets home he'll take his pen,

And write you up the best of men,

And you'll be mighty famous then (?)

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

CATARRH OF THE PHARYNX.

Clearing out your throat every day, all day. That is what you have been doing for months. Possibly years. A little mucus covers the pharynx.

If you were to go to a doctor he would tell you that you have pharyngitis. If you were to look into your own throat you would find just back of the soft palate a red, lumpy, granular appearance of the back part of the throat. Pharyngitis the doctors call it.

Perhaps he would call it, follicular pharyngitis. It causes you constant annoyance. You are always making slight disturbances when seated in an audience. Can't hold your throat still. Stringy mucus bothers you. Worse in the morning.

A-hem! A-hem! A-hem! That is the way you are going nearly all day. Sometimes in the night when you wake up. You ought to gargle your throat with salt water every morning. Cold salt water. That clears out the throat perfectly and makes it ready for treatment.

Peruna is the treatment. Begin with a teaspoonful before each meal and at bedtime. Try it for a week. You will be convinced. Of course, Peruna will not entirely relieve you in a week. That is too much to expect of any remedy. But it will benefit you so much you will be convinced. Yes, it will. It has done this many times.

Follicular pharyngitis. Big words. Almost as bad as the disease. But if you take Peruna for one month regularly, you may forget that you ever had such a disease. Then you will have a perfect right to forget the big words too.

People who object to liquid medicines can now obtain Peruna Tablets.

McLEAN WILL CLOSE DOWN

(CONTINUED FROM FIRST PAGE.)

McLean College have turned to her sister institution, Transylvania University, for counsel and help.

Specifically they have requested that the lesser stream of patronage, history and tradition called McLean College be permitted to join itself to the larger one of the historic University, so that friends of the former may yet think of it as a present living and working force in Christian education in Kentucky.

The University has been reluctant to accede to this request notably on two accounts. First, its own large affairs call for its utmost capital and energy and in good conscience its Managers must avoid as far as possible risks in investing either capital or energy. On the other hand, if profit of a material sort should result from such investment in McLean College, the University might be thought to have advised the Trustees of the College with a view to its own monetary advantage.

But the Trustees have repeatedly represented to the University, first, that they believed such investment on its part to be sound; and, second, that so far from being ill pleased if it should profit financially by its investment, they believed instead that the friends of the College would rejoice in that event.

And so Transylvania University has at length come to our help in the way proposed.

It remains to be added that the University is to assume all just and legal obligations of the College and to perpetuate the memorials established on the campus of the College, replacing bronze tablets in its own buildings at Lexington and naming properties after those commemorated in that way. Thus there will be on this most famous campus of the Disciples, an Ella Jones property, a Rash property, and so on; and the tablets which are now here will there speak of the generous grace of tried friends of Christian education to student and patron from near and from far, and this it is hoped for generations to come.

CHRISTMAS TRADE

Is On And The Man Who Advertises Will Scoop The Dollars.

Christmas day is less than 2 weeks off. During that time thousands of dollars will be spent for things that are not bought any other time during the year. Every merchant wants to capture as many dollars as possible. He is a poor business man if he doesn't and will never succeed if he does not get in the chase for dollars. Watch and see if the men who do the most business in the next two weeks are not men who advertise. Watch the advertisements in the Kentuckian if you want real bargains.

WOMEN REBEL

Against Slit Skirts And Other Man-Designed Clothes.

Members of women's clubs in Cleveland, Ohio, inspired by a movement set on foot at the convention of the W. C. T. U., have begun enlisting for a war upon present modes of feminine wearing apparel. Their plan is to compel the designers to reform.

"There seems to be no originality among women now," exclaimed Mrs. Emily Warner, one of the leaders of the movement. "They wear what men tell them to wear, because nearly all the designers are men."

Frozen And Dried Eggs Are Coming.

Washington, Dec. 11.—Dr. Mary E. Pennington, in charge of food research work of the Department of Agriculture, told the House Agriculture Committee that frozen and dried eggs would solve the problem of high prices.

"Frozen and dried eggs," said Dr. Pennington, "soon will be available to every household. Hard frozen eggs will keep a year and there is no question but that dried and frozen eggs will ultimately displace the cold storage variety."

Eggs cannot be kept in cold storage and be fit for food longer than ten months, she asserted, and added that dried and frozen eggs did not lose any of their nutritive value.

Girl Assaulted By

Porter on Car.

Chicago, Dec. 12.—The story of a frantic but unsuccessful resistance of a girl who was alone in a passenger coach, to the attack of the negro porter, was told here in connection with the arrest of the alleged offender, Robert Williams.

The passenger was Miss Cecelina Marcouiller, 20 years old, daughter of a farmer of Tomahawk, Wis., on her way to Dalton, Ill., last Thursday on the Chicago, Milwaukee & St. Paul Railroad.

NEED FOR CARE IN SWEEPING
Effective Removal of Dust Without
Unpleasant Results Requires Care
in Operation.

Sweeping should be a process of
complete and careful removal of dirt,
its purpose being to gather the coarse
dirt with the attached dust, and its
aim to scatter as little of this dust as
possible into the air, in order to pre-
vent a transfer of dirt from one place
to another. In order to sweep carpets
and rugs effectively a somewhat in-
flexible, stiff broom is best, because
it reaches into the depressions and
among the fibers to dislodge the dirt.
Try Mother's Magazine. If the broom
is too dry it will snap and throw off
a great deal of dust, consequently it is
always best to have the broom a little
damp so that it will hold the dirt
down and keep it all together.
The raising of dust is always more
or less of a problem. But with short,
light, wiping, overlapping movements,
and then by the stopping of the broom
on the floor instead of in the air, most
of the inertia of the rising dust cur-
rent may be overcome. In removing
the gathered dirt from the floor to the
dustpan, which is another occasion for
dust to find its way back to the car-
pet, if a newspaper dampened can be
fitted over the dustpan and made to
stand up as far as possible at the back
and sides a surprising amount of fly-
ing dust will be collected in this way.

HOUSEHOLD HINTS OF VALUE
Best Method of Sweetening Jars or
Tins—How to Ascertain if
Coffee is Pure.

To sweeten jars and tins which have
contained tobacco, onions or anything
else of strong odor, wash the article
clean, then fill it with fresh earth,
cover it and let it stand for 24 hours.
Then wash it and dry it and it will
be quite sweet and fit for use.
If you wish to know whether your
coffee is pure sprinkle a small quan-
tity on the surface of a tumbler of
water. Pure coffee floats; the adulter-
ated article sinks to the bottom and
discolors the water. This is a sim-
ple but effective test.
To remove fruit stains from table-
cloths, cover with powdered starch
and leave this in the stain for a few
hours. All the discoloration will then
be absorbed by the starch.
In cases of illness where ice is not
procureable for cooling the head of
feverish patients, cut a strip of cucum-
ber, peel rather thick and lay the in-
ner part on the forehead. It is deli-
ciously cool and remains so for a long
time.

Kitchen Basket.
Have you ever thought of the con-
venience a kitchen work basket might
be? If not, do arrange to have one
at once. The moments you will save
by its installment will be many. Place
a comfortable, low rocker in the
brightest corner of the kitchen and
near by make a nook for your work
basket. Into it drop such sewing as
requires no machine work, the stock-
ings to be mended, the bit of darning
and unfinished garments which re-
quire a little hand sewing to complete
them. While waiting for a cake or a
pudding to bake or the kettle to boil
many odd stitches may be taken and
much accomplished.

To Make French Pancakes.
Take two ounces of butter, two
ounces of flour, two ounces of sugar,
two eggs, a little baking powder and
half a pint of milk. Beat the butter
with a wooden spoon until creamy,
all the eggs slowly, also the sugar,
flour and baking powder, and when
quite smooth stir in the milk. When
well mixed turn the mixture into sau-
cers which have been previously
rinsed in hot water, so that they do
not crack. Have them well buttered,
and put in the mixture about half an
inch thick. Bake in the oven a nice
crisp brown, and when done put a lit-
tle jam in each pancake, fold once and
serve.

Lemon Apple Pie.
Grate the rind and strain the juice
of two lemons. Pare, core and chop
fine one large tart apple. Round two
crackers very fine. Mix with two tea-
spoons of melted butter. Mix the
lemon juice and rind and apple with
two scant cups of sugar. Beat the
yolks of two eggs to a thick froth and
the whites stiff, mix and beat to-
gether and mix with the lemon, apple and
sugar and add crumbs and butter.
Beat thoroughly and line two pie tins
as for custard pie. Pour in filling and
bake until crust is done.

Quick Graham Bread.
Two cupsful of graham flour, one
cupful of white flour, one-half tea-
spoonful salt, sift together. Add two
large tablespoonfuls of molasses and
about two cupsful of sour milk in
which one teaspoonful of soda has
been dissolved. Mix to rather stiff
batter, turn into greased bread pan
and bake at once for one hour in slow
oven.

Grapefruit Salad.
Peel separately the sections of
grape fruit, remove the seeds and
skin, blanch Malaga grapes by throw-
ing into hot water for two minutes, cut
in two, remove seeds, mix with grape-
fruit and serve with mayonnaise dress-
ing. Garnish with lettuce and celery.

Keeping Pickles in Glass.
Pickles should always be kept in
glass—never in glazed ware, as the
action of the vinegar on the glazing
is liable to form a poisonous com-
pound.

Not A Day In Bed.
Gramling, S. C. —In a letter from
Gramling, Mrs. Lulu Walden says:
"I was so weak before I began tak-
ing Cardui that it tired me to walk
just a little. Since taking it, I do all
the house work for my family of nine
and have not been in bed a day." Cardui
is the greatest remedy for women on earth.
It is the ideal woman's tonic, because it is especially
adapted for woman's needs. It re-
lieves backache, headache, dragging
feelings, and other female miseries.
Try Cardui. A few doses will show
you what it can do for you. It may
be just what you want.

HAD A RIGHT TO ENJOY EGG
Dog's Ingenuity in Stealing it Excited
Admiration in Woman Who
Watched the Theft.

An interesting dog story is told by
a lady correspondent from Hemp-
stead, London. She writes: I was
waiting my turn to be served in a
provision shop the other day, when
my attention was drawn to a some-
what bedraggled and hungry-looking
rough-haired terrier, which was gaz-
ing at an attractive-looking box of
eggs. He had the determined look
of one about to carry out some well-
planned act of daring. Very care-
fully indeed did he examine all the
eggs, whilst I remained motionless.
Then, with a step backward and a
steady look at the shopman, making
quite sure he was much too busy to
be interested in the affairs of a
harmless little doggie, he boldly
chose one of the largest eggs, and
without breaking it, or even moving
any of the others, rolled it into his
mouth. By this time my interest
was fully aroused and I gave chase.
I was soon rewarded by seeing him
creep through some railings to a
patch of grass, and then, with a look
of complete satisfaction, roll out the
egg, very neatly break off the top and
lick out the contents with the keen
pleasure of the true epicurean!

She (an amateur yacht woman)—
Why do you call an old maid "a der-
elict?"
He (a sea captain)—Because she
isn't manned.

TEACHING AUNTIE.
More and more we are learning
that much of our lives is lived "in
our minds," as the children say. A
certain little nephew of mine, who
has been visiting me, brought this
truth home with new force. "Let's
play hide and seek, Aunt Mollie," he
begged the other evening.
I was surprised, for it was dark
outside; so I said, "Oh, let's wait till
morning; you couldn't see in the
yard now."
Rather scornfully he replied: "Oh,
we don't play the old-fashioned way
any more, Aunt Mollie; we play hide
and seek in our minds. Then you
can hide in the lamp chimney or the
stovepipe or the inkwell or any-
where."
CHEATED DEATH 51 YEARS.
Charles F. Page, sixty-nine, a na-
tive of Deansboro, Oneida county, is
dead, 51 years after his coffin was
bought. Page was a soldier in the
Civil war and was encamped with his
regiment, the One hundred and sev-
enteenth New York volunteers, at
Fort Alexander in the fall of 1862,
when he was taken seriously ill.
When Page's death seemed im-
minent a requisition was made for his
coffin. It was brought to camp and
deposited near the tent in which the
sick soldier lay. Then Page began
to get better, and when he learned
about the coffin he declared that he
would not die. He did not until to-
day, when the end took place at Co-
lumbia, N. C.—Utica (N. Y.) Dis-
patch to the New York World.

HISTRIONIC INCOME.
"Will this income tax make any
difference in your affairs?"
"Yes," replied the prominent the-
atrical star. "It will be something
dire if I have to make good to the
government on the salary my man-
ager mentions in the advertising."
DRAMATIC "REDUCTION."
"I see that New York has sold all
its garbage to a Buffalo contractor."
"That's strange. I thought they
were utilizing it on the stage."
POOR SUBSTITUTE.
Willie—Paw, are there any substi-
tutes for tobacco?
Paw—Yes, there are plenty of
five-cent cigars, my son.

Will Probated.

The will of the late Mrs. Edmonia
Garrott was probated in the County
Clerk's office yesterday. The in-
strument is dated September 3, 1913,
and is witnessed by P. B. Pendleton
and C. C. Reynolds. It is very short
and covers only twelve typewritten
lines and reads as follows.

"I devise to my son R. J. Garrott,
my farm situated on the Tobacco
road about five miles from Pembroke,
Ky., during his natural life, at his
death to his children, in fee simple,
share and share alike.

"I appoint R. J. Garrott as ex-
ecutor of this, my last will. In wit-
ness whereof, I have signed and
sealed this instrument and pub-
lished and declared this instrument as my
last will, at my home in Christian
county, this 3rd day of September,
1913.

J. K. Hooser's Sale Opens Tomorrow.

J. K. Hooser's Clothing
Store will tomorrow open
their Public Sale. They have
advertised the sale for fifty
miles in all directions and
have used a very large
amount of printers ink. You,
no doubt, remember, the
sale that Green & Hooser
held last June, as it was a
sale long to be remembered
and was by far the largest
and most successful sale ever
held in Hopkinsville, or in
fact in this part of the State.
The sale is going to continue
for a period of 16 days end-
ing on Saturday, Jan. 3.
This is a very unusual time
of the year to hold a sale,
but the people are the ones
who should rejoice as they
now have the opportunity to
buy their Holiday goods and
to purchase their entire needs
at a sacrifice. This will en-
able many to make purchases
at a very small cost. The
entire stock is to be placed
on sale and with the stock of
goods that J. K. Hooser car-
ries and the strong advertis-
ing campaign that is going
on they should have a pack-
ed store from the opening
hour until the close each and
every day of the sale.

Tickets on Sale.

Tickets are now on sale at Ander-
son & Fowlers for "The Divorce
Question," which is to be presented
at Hollands Opera House tomorrow
night.

LIVED FOR MONTH IN SEWER

Remarkable Experience of Italian, Who Has a Possible Chance of Recovery.

In a sewer for a month, a painter of Milan, Italy, has just been rescued from his unwholesome position. Some workmen who were repairing the city sewers—the largest in Italy, extending over 200 miles—were startled by the apparition of a gaunt, tattered man covered with mud, who in a much exhausted state invoked their aid. The man was rescued with difficulty and conveyed to hospital, where food and restoratives were given him. He said he was a painter, aged eighteen. A month ago, while sleeping in the open air, he was assaulted by three hooligans, who robbed him and then threw him into the sewer. By sheer force of will he had succeeded in living a month underground, continually wandering along the sewers, daily trying to find an exit, groping in the darkness, fighting rats, eating refuse and drinking filthy water. The painter's exhaustion is so great that he requires three months' hospital treatment before his recovery is certain.

RELIC OF DISTANT PAST.

There is now in the natural history museum at Paris a fine specimen of mammoth with the flesh parts preserved to a certain extent. The specimen was offered to the museum by the count of Stenbock-Fermor, who found it in one of the islands of the Siberian region. After extracting it at his own expense he brought it to Europe by sled, boat and railroad. This is probably the only specimen of the kind which central Europe possesses, for the Russian government has issued a ukase prohibiting any export of the mammoth, either entire or in part. Such animals preserved in the ice have been known since 1806, but the only specimen preserved under these conditions up to the present and brought to Europe is to be found at the museum of the Academy of Sciences at St. Petersburg.

TANGLED LEGAL QUESTION.

The interesting question whether a workman can be legally forced to undergo an operation to make him well again has been decided in the negative at Fribourg, Switzerland. The man, while at work, met with an accident and his employer had to pay him compensation for several weeks. The doctors, however, state that if the man submitted himself to an operation he would be cured in a short time and be able to work. But the man, supported by his wife, fears that he will not recover from the operating table, and refuses to undergo the ordeal.

BEAUTY WINS.

"That girl had been standing half an hour. Why did you get up so suddenly and give her your seat?" "She lifted her veil."

USELESS WASTE.

Gabe—Some people spend their money foolishly.
Steve—Yes, I once heard of a man who gave a smoker in Pittsburgh.

UNDISCOVERED.

"You're more in this world than I am."
"Here is my wife."

Divine Spark.
"I understand her sweetheart is a minister of the gospel." "Yes, she has the divine spark."

AMUSEMENTS.

One of the widest discussions ever made in an American play is considered by Wm. Anthony McGuire in his latest dramatic effort "The Divorce Question" which will be seen at Holland's Opera House, Wednesday, Dec. 17. The author contends

that a child has a hereditary right to its parents—the obligation of the parents to the child are responsible for creating—the maintenance of a high standard of morality is of far greater importance than the individual interest involved when unfortunate alliances seem to render divorce necessary. Mr. McGuire has studiously avoided sensationalism but has a strong sense of situation and his climaxes are stirring—but everywhere the atmosphere is surcharged with intensity and the truth is brought home to the spectator in an effective, convincing manner. To Prevent Hall.

France is now testing a new type of hall destroyer. The device is essentially a very large lightning rod of pure copper, grounded by means of a copper conductor. Accordingly to the theory of the inventors, these instruments, by their effect upon currents of atmospheric electricity, are capable of preventing the formation and the fall of hailstones.
